Overall I found Coin master to be a fairly quick game to play, although it is not as addictive as some of the other games on this site. I would recommend giving it a try for 50 minutes or so and see if you enjoy it before you decide whether to purchase it at all. The game itself is free but there are unlockables such as achievements and costumes which can't be unlocked unless you decide to spend your in-game coins (which costs about \$2 per million coins). You can also still play the free version of the game without spending your coins, but you won't be able to unlock all the achievements and costumes as you progress through the game."

In 2015, the game gained attention when a player won a card pack as part of a charity raffle. The player was awarded the card "MYSTIC MINE" by developer United Pixelworkers after taking part in an event via their Twitter account. Mike Miller, the developer of the mobile game, confirmed on his Twitter page that it is an actual card for sale in their store and since then has made appearances in real-world merchandise and as part of cards used in tournaments."

In 2014 Moon Active launched a Kickstarter campaign asking for \$8,000 to help progress development of Coin Master on PC platforms. It reached its target and the developers also received additional funding from a Jewish organization to support their work developing "Coin Master". A Minecraft version of Coin Master was also created by Mojang (Minecraft) in 2015, which is available to players free of charge via Minecraft Realms."

The game's website also has a hit counter that updates every five minutes. The game also tracks player activity by awarding quest coins based on how many games have been played and how quickly they are completed in the app. The rarer a card is used in a match the more coins earned."

I'm almost broke by Don't get this game on 2019/03/25 18:10 You need to earn coins from spinning the wheel and games but it takes up all of your energy and then gives you 1 coin per fish. So you have to buy more energy with the coins you've already earned just so you can earn more coins. How many levels are there? Who knows because it gives you no way of knowing besides having to look at every level on your own. I've played this game for a few months now and I'm already broke. I've had to start putting coins inside my code so the game will pay out at the end of the month/week because otherwise you won't make it. How do I know? Because after I put in my code, the game pays me what it owes me but then takes money from me when it's trying to be nice and give me a level up bonus or an extra spin or whatever. If you want to spend money then don't play this game because there is no other way to get money easily without spending your own rubies/coins on extra energy. I also don't know how people are buying the "Chat with friends" thing. I have never gotten it to work and I have several friends who also play. So it makes you spend money just to talk to your friends even though you can't even talk to them for free using the in-game chat."
